

RUSSIAN RIVER FLOOD CONTROL AND WATER CONSERVATION IMPROVEMENT DISTRICT

MENDOCINO COUNTY RUSSIAN RIVER FLOOD CONTROL & WATER CONSERVATION IMPROVEMENT DISTRICT

POLICY #92-4

A POLICY OF THE BOARD OF TRUSTEES OF MCRRFC & WCID REGARDING PROCEDURES TO FOLLOW CONCERNING RIVERBANK EROSION

IT IS THE POLICY OF THE BOARD OF TRUSTEES OF MCRRFC & WCID, FROM DATE OF ENACTMENT UNTIL CHANGED, AMENDED OR CANCELLED, AS FOLLOWS:

The DISTRICT shall encourage all landowners along the River to take reasonable and lawful measures to protect their riverbank at landowner's expense.

If the DISTRICT first determines that assistance from DISTRICT's engineers, attorneys, or staff, will be beneficial to the DISTRICT as a whole, to preserve and protect existing riverbanks, levies, works or assets, public or private, or to prevent further erosion or damage to same, then DISTRICT may authorize the use of funds or personnel to design, control or construct all repairs and erosion control devices as DISTRICT deems necessary.

Prior to commencement of any such design or construction work, DISTRICT shall:

- 1) Review the proposed project.
- 2) Determine the relative benefits to be recovered by the DISTRICT as a whole, individual landowners affected thereby, and governmental agencies affected thereby.

DISTRICT shall then propose the method and means of construction and a division of the cost of the project among the DISTRICT, affected landowners, and governmental agencies.

After such a proposal is agreed upon and reduced to written agreement, DISTRICT shall instruct its staff to carry out the proposal using appropriate methods of contracting for said work as required by state law.

DISTRICT may, if DISTRICT determines it to be reasonable, accept from other affected parties, contributions toward that party's share of the cost by way of labor, equipment, time, or materials; but in the event that same is accepted, the use thereof shall be at the discretion of the DISTRICT engineer, and the value thereof shall be determined by the DISTRICT in advance.

Adopted this 24th day of August, 1992, by the Board of Trustees of the Mendocino County Russian River Flood Control & Water Conservation Improvement District.
