**Via Electronic Submittal (E-File)**

Debbie-Anne Reese, Secretary  
Federal Energy Regulatory Commission  
Division of Hydropower Administration and Compliance  
888 First Street, N.E.  
Washington, DC 20426

**RE: Potter Valley Hydroelectric Project, FERC No. 77-CA  
Extension of Time Request to Supplement License Amendment Application**

Dear Secretary Reese:

This letter presents Pacific Gas and Electric Company's (PG&E) request for an extension of time to submit to supplement its pending license amendment application for the Potter Valley Hydroelectric Project (Project), Federal Energy Regulatory Commission (FERC) No. 77. In a letter dated December 19, 2025, PG&E notified FERC that it would be providing a supplement to its pending request for a license amendment of the minimum flow requirements under Article 52 of the Project license (FERC accession # 20251219-5321). PG&E is intending to provide the draft supplemental to the appropriate agencies for review by June 30, 2026. In order to allow for a 60-day agency review period and time to address any comments, PG&E requests to submit the supplemental to FERC by September 30, 2026.

If you have questions, please contact Chadwick McCready, senior license coordinator for PG&E at (530) 685-5710.

Sincerely,

Matthew Joseph  
Supervisor, Hydro License Management
